

Executive Assistant Professional Certification Reviews from EAs

Amanda Erasmus
Contracts Coordinator
Sunwater

I found the course really powerful because it challenged me to challenge myself in terms of my capabilities. Listening to the facilitator, hearing everyone else, and having the one-on-one conversations helped me realise that I am capable and I do have the ability – I just need to step up and believe in myself.

Merika Brown
EA to Group CEO,
COPO & Boards
Pristige Inhome Care

This course helped me realise I've instinctively been doing many of the things covered in EAPC, but it has been so valuable to have frameworks to refer back to - especially when I'm planning a conversation - so I don't miss any important steps. I also loved learning about "created context" and look forward to coaching people through relying on "descriptive language" and discovering the power of "committed language". I am excited to spend more time "planning for possibility" and seeing my thinking elevate as a result. The EAPC has given me the language and structure for things I've been doing innately.

Jess Kiapikos
Business Services and
Executive Coordinator
Homes Victoria

I printed the leadership distinctions and put them up at my desk, and I've had quite a number of people stop and really take them in. It's been great to see colleagues reflect on what they're doing and then work it into their conversations and project work. Coming back to the course also reminded me how valuable it is to connect with other EAs, especially hearing experiences outside my organisation and it's already got me thinking about how I can keep changing how I work.

Sharon Jamieson
EA to the CEO
Waverley Social
Enterprises

Coming into the course the second time, I expected a refresher, and it was but it also gave me extra clarity and insight. The first time around it took a few sessions before the 'pennies dropped' and I realised how big it was, especially the internal reflection on why things haven't progressed. This time, everything felt a lot clearer, and that added direction has been really beneficial.

The Certified High Performing EA Reviews from EAs

Alyssa Broomby
Executive Assistant to
the CEO at Digital
Transformation
Agency

The EA Institute changed my life! Seriously! I could not dream up a more inspiring, challenging and encouraging six months of growth that I experienced through 'The High Performing EA' Thank you for your incredible mentoring, for helping me see what's possible, for holding me accountable and for believing in me more than I believed in myself. I still can't believe I did this! I am beyond ready for the future.

Brooke Werner
Executive Assistant to
Chief Executive Officer
at Wilson Security

Having recently completed The High Performing EA program, I highly recommend the course. The facilitator is great, continually pushing me out of my comfort zone and I am now reaping the rewards not only in my work life but it also translates through to my personal life. The course is well structured and has provided me with many new tools and strategies to use to help me lead at work.

Angela Marangon
Executive Assistant to
CEO at TeccsideGroup

I would highly recommend The High Performing EA program. From our first conversation, I knew I would be pushed out of my comfort zone, in the best way possible. As a graduate of The High Performing EA program, I have been amazed with how much the program can not only change my life professionally, but also personally. The facilitator has the ability to truly empathise with your circumstances, help you to see the opportunities you have for change, provide you with the tools and empower you to make those changes yourself.

Brok McNally
Executive Assistant to the
Chief of Staff at Office of
the Premier of Victoria

The High Performing EA absolutely shifted gears for me both personally and professionally. Key takeaways were really around seeing the possibility in my role and career more broadly, what opportunities I can create and what impact I can make. Another key takeaway was being able to identify what barriers exist, why they exist and how I can overcome them. It's hard to put into words how powerful the program was for me and the transformation in myself and my cohort from start to finish but if you get the opportunity to participate, I would 100% recommend it. I've not come across any other program like it.
